

# ECO S

ECO S is a new linear luminaire for generic lighting. It has a streamlined design language and a high level of environmental protection (IP65 & IK08). The luminaire is available in a range of different length, power and light distribution options for various environments.

The luminaire's pressure equalisation is based on a replaceable Gore filter, ensuring that the pressure-balancing air is kept clean in a controlled manner.

i

## Benefits

The luminaire's components and materials have been carefully selected to ensure energy efficiency and a long lifespan. Thanks to its high-quality optics, the luminaire delivers even and glare-free lighting. ECO S meets the needs of demanding environments and it has been designed to be easy to install and connect.

ECO S luminaire supports emergency lighting solutions made with Teknoware's addressed central systems.

## Suitability

A linear luminaire to be widely applied in industry, warehouses and sport&exercise premises. Thanks to its set of light distributions ECO S luminaire fits very well to various installation height applications.
