

PHI ARROW

Phi Arrow is an elegant opal or microprism luminaire with an evenly illuminating light surface. It is ideal for shops and offices. The textured surface and impeccable finishing give the luminaire a high-quality, premium look.

Phi Arrow has a wide aperture that enables soft and glare-free lighting. The luminaire is available in four different sizes.

Benefits

Phi Arrow offers an extremely even and consistent light surface with low glare ratings.

Phi Arrow is installed with wire brackets. Phi Arrow is delivered as modules and with ready-to-use connecting cables, which makes it easy and quick to assemble. The luminaire has no visible screws, and the wires and cables can be hidden in the indentation on the frame. The innovative solutions used in the luminaire include super magnets at the corners, and corner brackets that support the structure and prevent light leak.

Available control options are On/Off, DALI and wireless Casambi control.

The standard luminaire colour is either white (RAL 9003) with textured surface or black (RAL 9005) with textured surface. Optional colours are available according to the RAL

Suitability

Phi Arrow Opal and Opal C15 are an excellent solutions for shops and lobbies, where opal optics create a sense of space. Phi Arrow C15 1245 30W, 1805 44W, 2365 58W and 2925 60W luminaires outperform the glare requirements of the WELL standard ($L45/90 < 6000 \text{ cd/m}^2$). The Phi Arrow Opal 1245 30W, 1805 44W and 2365 58W luminaires are also suitable for WELL ($L45/90 < 6000 \text{ cd/m}^2$) environments at the maximum lumen output of 90%.

Phi Arrow soft 75° optics are suitable for all office spaces, including open offices. The Phi Arrow soft 75° 1245 30W, 1805 44W and 2365 58W luminaires outperform the glare requirements of the WELL standard ($L45/90 < 6000 \text{ cd/m}^2$ or $UGR < 16$) and the glare requirements for DSE workstation lighting (EN 12464-1 (2021): DSE L65 $\approx 3000 \text{ cd/m}^2$).
